Critical Window Protection for Storm and Hurricane...

- **Passive window protection 24/7**
- **Holds dangerous shards together**
- **Requires no storage**
- **Professionally installed**
- **Available in clear or tinted for energy efficiency**

New Orleans
Ft. Worth, Texas

Protect the envelope of your building — Despite disaster resistant building codes, severe weather such as windstorms and hurricanes can breach the envelope of buildings and wreak havoc on properties every year as-well-as, causes serious damage, injury and in some cases, death to occupants and bystanders. Much of this destruction is due to the weakest link of your building...**your glass windows!**

Windborne Protection...

How can occupants weather the Storm...? — GlassLock offers a heavy duty polyester security film which is bonded to the glass with special adhesives. When installed on the interior of new or existing glass, and provides a virtually invisible force that helps hold the glass together when it breaks due to high winds, dramatically reducing the damage and potential injury that is caused by flying glass, keeping your premises and people safe and secure.

A Clear Solution — with GlassLock you can be assured of the highest quality security film with excellent visual clarity.

GlassLock — Offers a level of integrity and professionalism and has installed millions of square feet of security film around the world.
